VIVOTEK Confidential

## ***Introduction***

VIVOTEK 7000 series cameras support RTSP protocol. As long as the cell phone supports standard RTSP protocol and MPEG-4 simple profile format, it is able to get the RTSP streaming from VIVOTEK 7000 series cameras.

Blackberry 9000 supports standard RTSP protocol and MPEG-4 simple profile format. This document shows you how to get the RTSP streaming from IP7133.

You can go to the following link to check the media format that your blackberry supports:  
<http://www.blackberry.com/btsc/dynamicckc.do?cmd=show&forward=nonthreadedKC&docType=kc&externalId=KB05482&sliceId=1>
