VIGOROUS BROADBAND ACCESS

Vigor2930 Product Line

- High-integration with 802.11n, VolP and ISDN
- Dual-WAN with policy-based Load-Balance and Fail-Over/BoD
- Wireless Security
 - WEP/WPA/WPA2 Encryption, MAC Address Control, Wireless LAN Isolation, Wireless VLAN and 802.1X Authentication
- WDS (Wireless Distribution System), Wireless AP Discovery and Rate Control support

- One dozen SIP registrars
- Two FXS ports
- One Fixed ISDN NT and one configurable TE/NT ports
- Supplementary services
 - Call Hold/Retrieve, Call Waiting, Call Transfer, Call Forwarding, Call Barring, DND (Do Not Disturb), MWI (Message Waiting Indicator), Hotline, T.38, Phone Book and Digit Map
- Bandwidth/NAT session limitation

QoS

- Class-based bandwidth guarantee by user-defined traffic categories
- 4-level priority for each direction (Inbound/Outbound)
- Assure bandwidth for own VoIP service
- Object-Oriented Firewall makes setting of policies easy
- Firewall supports IP Filter, DoS/DDoS Prevention, Web/URL Content Filter
- CSM (Content Security Management) allows more precise and efficient access control for IM/P2P applications

- 100 VPN tunnels with MPPE, Hardware-based DES/3DES/AES encryption and Hardware-based MD5/SHA-1 Authentication
- HTTPS and SSH secure management

Vigor2930 Schedule

Products	MP
Vigor2930/VS	End of May.
Vigor2930nVn/VSn	End of Jun.

Term of ISDN

- NT (Network Terminal)
 - ISDN S0 intern
 - Connect to ISDN Phone
- TE (Terminal Equipment)
 - ISDN S0 extern
 - Connect to ISDN Line

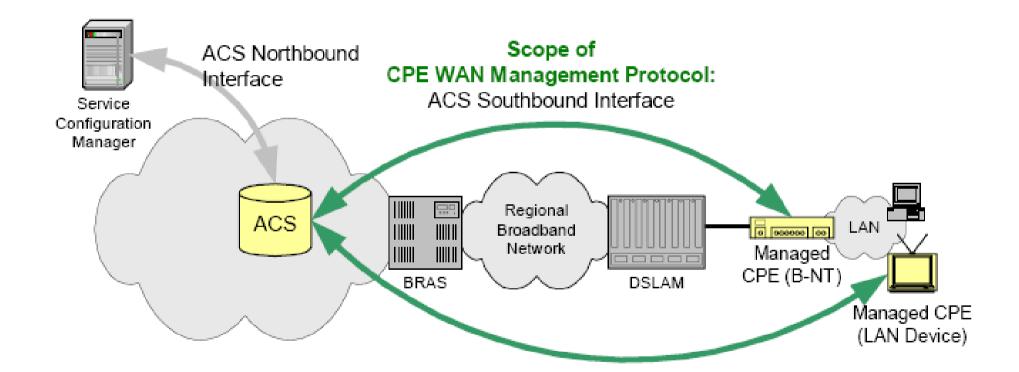

Functions of TR-069

- Auto-configuration and provisioning
 - Initial CPE configuration
 - Auto-provisioning at any defined time
- Firmware upgrade
 - Version identification
 - File download initiation
 - Notification of the success or failure of a file download
- Status and performance monitoring
 - Log file, and dynamic notification
- Diagnostics
 - Connectivity and service issues

Scope of TR-069

TR-104

- Define parameters for VoIP CPE as an extension to TR-069
- A solution of VoIP Auto-provisioning

DrayTek Anti-Spam

- Support POP3 and SMTP
- 8 Profile integrated into Object Firewall
- Whitelist/Blacklist
- Power by Commtouch

Category and Action for E-Mail

Three Categories

- Spam : E-Mail identified as Spam or Phishing
- Bulk : Sent in large quantities, such as newsletters
- Suspect : E-Mails suspected of being Spam or Bulk

Two Actions

- Pass: Pass this E-Mail
- Tag: Add a tag on the E-Mail subject

Add a Tag on E-Mail Subject

DrayTek

IPSec and SSL VPN

IPSec

- Protocol
 - ESP (Protocol 50)
 - IKE (UDP 500)
- Encryption
 - DES/3DSS/AES
- NAT Traversal
 - NAT-T (RFC-3947/3948)
- Better for LAN-to-LAN

SSL

- Protocol
 - HTTPS (TCP 443)
- Encryption
 - **RC4**
- NAT Traversal
 - No issue if browser works
- Better for Remote Dialin

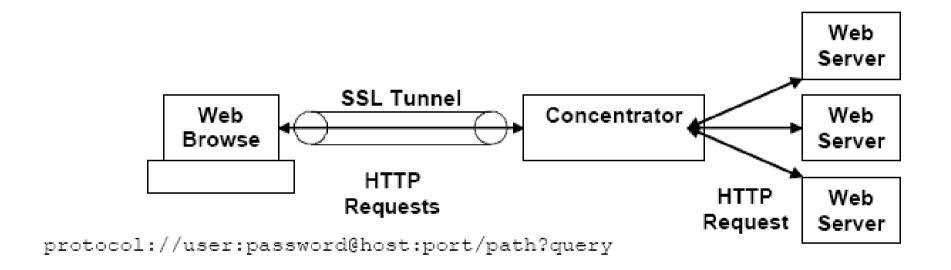

DrayTek's SSL VPN

- Web Application
- Web proxy
- Microsoft SSTP

SSL VPN - Web Proxy

Dray Tek

SSTP

- Secure Socket Tunneling Protocol
- Microsoft's SSL VPN Solution
- Encapsulate PPP packets over an HTTPS session
- Microsoft plans to ship SSTP support in Vista Service Pack 1 and in Longhorn Server

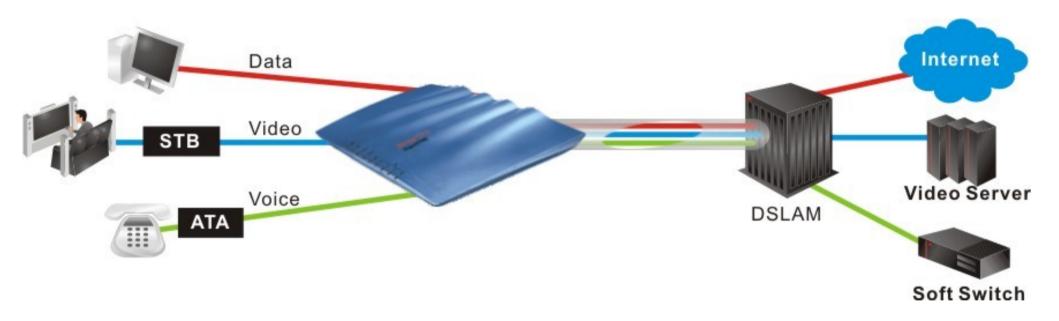

Key Features of SSTP

- Use HTTPS to establish secure connection (TCP 443)
- No need to worry about typical port blocking issues
- The SSTP Server will be built in to Longhorn Server
- The SSTP Client will be built in to the Vista SP1
- Integrated NAP (Network Access Protection) support for client health-check, this means different kind of health check with extensibility by third party vendors (like antivirus, firewall, etc.)

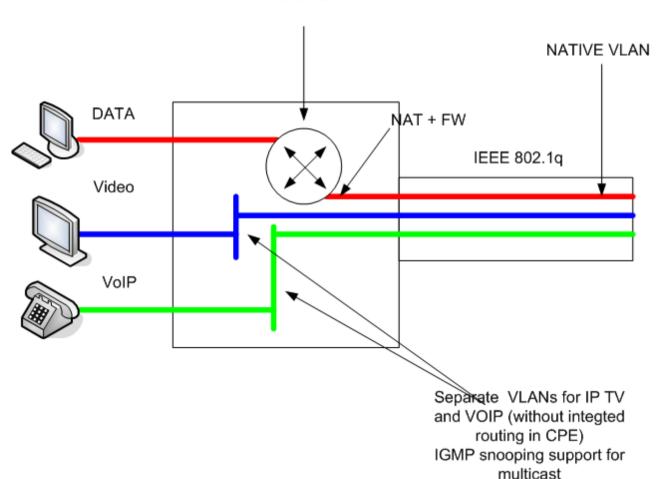

Multi-Play on DSL

Multi-Play on Broadband

Integrated router functionality with NAT for data VLAN
