Vigor2910 Series

- **High-integration with 802.11g, VoIP and ISDN**
- **Configurable 2nd WAN for policy-based Load-Balance and Fail-Over/BoD**
- **SuperG™ provides up to 108Mbps data rate**
- **Wireless Security**
 - **WEP/WPA/WPA2 Encryption, MAC Address Control, Wireless LAN Isolation, Wireless VLAN and 802.1x Authentication**
- **WDS (Wireless Distribution System), Wireless AP Discovery and Rate Control support**

Vigor2910 Series

- **Two FXS ports with six SIP registrars support**
- **ISDN BRI interface for VoIP on-net/off-net and loop-through calls**
- **Supplementary services**
 - **Call Hold, Call Waiting, Call Transfer, Call Forwarding, DND (Do Not Disturb), Hotline and T.38**
- **QoS**
 - **Class-based bandwidth guarantee by user-defined traffic categories**
 - **4-level priority for each direction (Inbound/Outbound)**
 - **Assure bandwidth for own VoIP service**

Vigor2910 Series

- **Bandwidth/NAT session limitation**
- **Object-Oriented Firewall makes setting of policies easy**
- **CSM (Content Security Management) allows more precise and efficient access control for IM and P2P applications**
- **Firewall supports IP Filter, MAC Address Control, DoS/DDoS Protection, Web/URL Content Filter and IM/P2P Blocking**
- **HTTPS and SSH secure management**

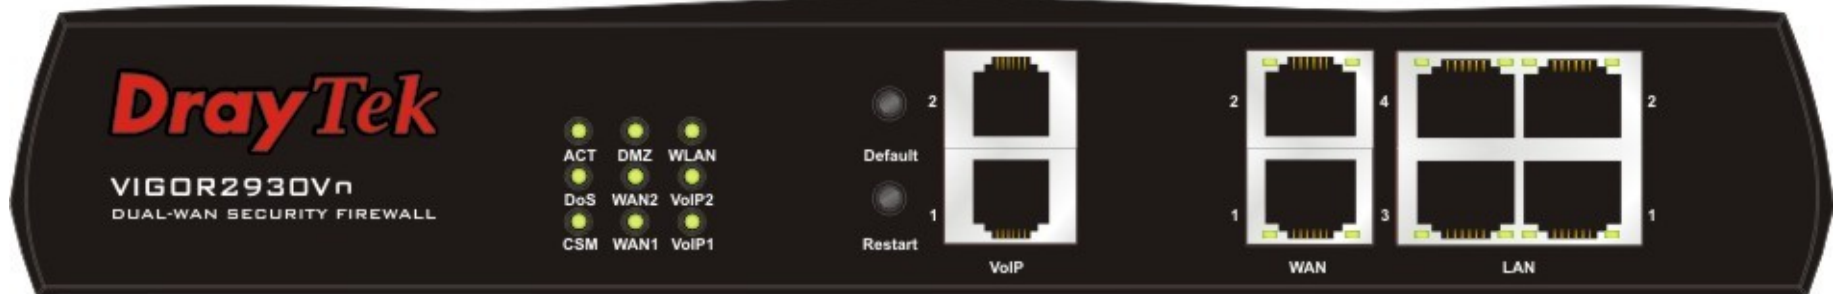

Vigor2910 Series

- **32 VPN tunnels with MPPE, AES and hardware-based DES/3DES encryption**
- **One USB 1.1 host for USB printer**
- **Automatic ISDN backup when ADSL2+ fails**
