Release Note for Syslog Utility

Firmware Version:	4.9.0
Release Type:	Regular – Upgrade recommended when convenient, as it includes general improvements and optimizations
Applied Operation System:	Windows 7/10/11

New Features

- Added TCP support to comply with ISO 27001 requirements.
- Added to support for receiving logs via TLS.
- Added a new dedicated tab: IP Reputation Log.

Improvement

- Improved: Changed the character encoding by Unicode instead of Multi-Byte Character Set.
- Corrected: An issue where the Database Searcher window would incorrectly switch to DrayTek mode when changing the display language.

Known Issue

- None.

Note

- Windows XP is supported no longer.
